Workday is a ministry of Restore St.
Louis, the community outreach
arm of New City Fellowship.

**SERVICE AND
LEADERSHIP TRAINING**

WORKDAY

Building a ramp for a shut-in homeowner, sitting and laughing with a senior living alone, turning a jump rope for a kiddo during a summer Bible club, teaching a newly arrived refugee vocabulary for a supermarket excursion—simple yet powerful acts workday performs.

Interns working with Workday will be working alongside our high school teams that volunteer with us throughout the summer. They will be the "face" of Workday as they lead these teams on job sites and at Bible Clubs.

FIRM FOUNDATION TUTORING PROGRAM

FIRM FOUNDATION TUTORING PROGRAM

Firm Foundation interns will be assisting in teaching a class of elementary students with a teacher throughout the summer tutoring program. This will include preparing and implementing lesson plans, organizing volunteers that will assist in your classrooms throughout the summer, and most importantly maintaining a safe and fun learning atmosphere!

Health Connections

The Health Connection vision is to see God's love manifested by the Body of Christ to the most vulnerable: the fatherless, the widow, the refugee and immigrant by building caring relationships and empowering the most vulnerable to stay healthy and receive quality healthcare.

Interns working with the Health Connection ministry will be visiting the homes of some of our neighbors, assisting them in various health appointments, and helping them organize and better learn how to care for their health
